

Market intelligence report

Prepared for Internal

GEOGRAPHY	all covered markets
PERIOD	July 2026
PIPELINE	hospitality
FILTERS	dormant excluded context records included
BASIS	139 projects, 205 records

Provenance legend. This report separates three kinds of statement so the reader can weigh each. [RECORD] marks facts drawn from the government filings we captured, each with the link to the filing itself. [PRESS] marks facts reported in the press or otherwise beyond our filing record. [ASSESSMENT] marks our own read, offered as judgment rather than as fact.

Scope of this report

What this document covers, and what it does not.

[ASSESSMENT] This report covers all covered markets for July 2026. It is drawn from 139 projects and 205 captured records. Of those projects, 15 are described in full, selected by significance; 53 further projects are counted but not described; 42 projects filed nothing in this period; and 29 carry no market or region we could resolve. 2 projects whose every record has been dismissed are excluded entirely, because they have no filing to cite. A further 26 projects in this geography are excluded because our capture holds no published name for them; the coverage note says where. 6 projects in Miami-Dade County and San Antonio are held out entirely: the public source we read for those markets has stopped publishing, so what we hold is historical. The coverage note gives the dates. Anything outside that geography or period is not covered here.

What moved

Projects that advanced a stage in this period.

No project in this scope advanced a stage during July 2026. 1 project moved into or out of stalled or dormant, which is a verdict about how long a source has been quiet rather than something that happened.

Headline finds

The 15 most significant projects in this scope and period, with their most recent filing.

[PRESS]	Heart Hotel / Kulik River: Las Vegas Topic Kulik River Capital 2026-07-24 Clark County news3lv.com

11 further projects in Las Vegas, 5 further projects in Anaheim, 3 further projects in Clark County, 3 further projects in Phoenix are in this category and not described here.

Projects with no resolved category

These projects are in scope and our classifier could not place them in the taxonomy. They are described here rather than dropped, and they are not filed under "Other", which is a category that means something. 1 project described, across 1 market.

CLARK COUNTY

Hilton Resorts

Clark County | approved

Hilton resorts corporation: Use permit for a monorail on approximately 21 acres in an RM50 (Residential Multi-Family 50) Zone, a CR (Commercial Resort) Zone...

[quoted from the filing](#)

Records show 1 filing, dated 2026-07-28.

7 further projects in Clark County, 2 further projects in Oakland, 1 further project in Phoenix are in this category and not described here.

Upcoming hearings and deadlines

Decision dates ahead, from the captured records.

No record in this scope carries a future decision date. Hearing dates are not currently extracted from agenda records, so this reflects our capture rather than the absence of scheduled hearings.

Watch list

Projects being watched in this scope, and what they did in the period.

[RECORD] **Nevada Palace: PA-26-700023: Plan amendment to redesignate the existing land use category from Entertainment Mixed-Use (EM) to Compact Neighborhood (CN)**
2026-08-04 | Clark County

Coverage note

The limits of this document.

[ASSESSMENT] Coverage is limited to all covered markets. Projects outside it exist in our register and are not reported here.

[ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.

[ASSESSMENT] 6 projects are held out of this document because the public source we read for those markets has stopped publishing. We hold real filings for them and they are old, so describing them here would present past activity as current. By market: Miami-Dade County (3 projects, nothing published since June 2018), San Antonio (3 projects, nothing published since September 2021). They remain on the register with the date of the last filing we hold.

[ASSESSMENT] On Miami-Dade County: the last filing we hold is from June 2018, and we have captured nothing there since. The 3 projects concerned are on the register with that date against them. We are not able to say what has been filed in Miami-Dade County since then, and this document should not be read as saying nothing has.

[ASSESSMENT] On San Antonio: the last filing we hold is from September 2021, and we have captured nothing there since. The 3 projects concerned are on the register with that date against them. We are not able to say what has been filed in San Antonio since then, and this document should not be read as saying nothing has.

[ASSESSMENT] 86 projects in this geography are dormant and excluded from this report: they have had no filing for long enough that we no longer treat them as live. They remain on the register.

[ASSESSMENT] This document describes the 15 most significant projects in scope. 53 further projects in scope are counted but not described.

[ASSESSMENT] 5 projects described above have a one-line description on our register that is not printed here. Those lines were written by a model reading the filings rather than quoted from one, so there is no document to cite for them and they are not offered as Philip's assessment either. The filings under each entry are unaffected.

- [ASSESSMENT] 26 projects in scope are not named in this document because our capture holds no published name for them - only the agenda line the matter was filed under, which is the instrument rather than the project. They are on the register and can be named by hand. By market: Nashville (9), Clark County (3), Las Vegas (3), Phoenix (3), New York City (2), no resolved market (2), Anaheim (1), North Carolina (1), Oakland (1), Westchester County (1).
- [ASSESSMENT] 2 categories are in scope with no project described, so they have no section above: Infrastructure (4), Smart City/Urban (1). The count in brackets is how many projects in that category are in scope and below the detail cap.
- [ASSESSMENT] 42 further projects in scope had no filing captured during July 2026, so they are not described in any category section. They remain on the register.
- [ASSESSMENT] 10 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 17 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.
- [ASSESSMENT] 29 projects in scope carry no market or region in our capture, most often a tender published against a country rather than a place. They are counted but not grouped under any market, because a project we cannot place must not be printed as though it were a market of its own.
- [ASSESSMENT] 2 projects in this geography hold no live record and are excluded: every record attached to them has been dismissed on review, so there is nothing to cite.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
