BASIS	1 project, 13 records

Scope of this report

[ASSESSMENT] This report covers United States > Clark County for July 2026. It is drawn from 1 project and 13 captured records. Of those projects, 1 is described in full, selected by significance. 1 project whose every record has been dismissed is excluded entirely, because it has no filing to cite. 3 projects this scope proposes are held out of this document because they have not been confirmed as part of Simtec Attractions' coverage. A scope is a proposal: it finds projects that look like a match, and each one is confirmed by hand on the register before it may be printed. Those projects are on the register, unconfirmed, and are not a statement that they do not belong here. Anything outside that geography or period is not covered here.

No project in this scope advanced a stage during July 2026. 1 project moved into or out of stalled or dormant, which is a verdict about how long a source has been quiet rather than something that happened.

[RECORD] Kulik river capital, LLC: Tentative map consisting of 1 commercial lot on 11.95 acres in a CR (Commercial Resort) Zone within the Airport Environs (AE-60) Overlay.
quoted from the filing

1. **Location:** The property is located on the east side of Clark County, Nevada, between Mandalay Bay Road and Four Seasons Drive, and Las Vegas Boulevard South and Haven Street, and a portion of a right-of-way being proposed resort hotel and recreational facility Mandalay Bay Road located between 1 Las Vegas Boulevard South and Haven Street within Paradise

Upcoming hearings and deadlines

Decision dates ahead, from the captured records.

No record in this scope carries a future decision date. Hearing dates are not currently extracted from agenda records, so this reflects our capture rather than the absence of scheduled hearings.

Watch list

Projects being watched in this scope, and what they did in the period.

No projects in this scope are on the watch list.

Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to United States > Clark County. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] Dormant projects are excluded from this report. None in this geography is dormant.
- [ASSESSMENT] 3 projects this scope proposes are held out of this document because they have not been confirmed as part of Simtec Attractions' coverage. A scope is a proposal: it finds projects that look like a match, and each one is confirmed by hand on the register before it may be printed. Those projects are on the register, unconfirmed, and are not a statement that they do not belong here. Confirming them on the register and regenerating is what puts them in this document.
- [ASSESSMENT] This document describes the 15 most significant projects in scope. Every project in scope is described.
- [ASSESSMENT] 4 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 1 record counted on the cover is the same filing captured more than once - a bilingual minute, or a document captured page by page - and is shown once above.
- [ASSESSMENT] 1 project in this geography holds no live record and is excluded: every record attached to it has been dismissed on review, so there is nothing to cite.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
