GLI DEVELOPMENT INTELLIGENCE BRIEF

JULY 2026

[THERE ARE NO SHORTCUTS]

Generated from primary sources. Every link fetch-verified.

Scope. This brief is generated from the GLI development-intelligence system, which monitors primary-source records across municipal agenda platforms (Anaheim via Granicus, City of Las Vegas via PrimeGov, and Clark County, Oakland and other jurisdictions via Legistar), special-district documents (the Central Florida Tourism Oversight District board packets and its 2045 Comprehensive Plan, read at the page level), California state environmental filings (CEQAnet), South Florida water permits (SFWMD Environmental Resource Permits), federal and public procurement, and leisure trade press. Every item below was pulled from a record captured in the system, and every link was fetch-verified before inclusion. The only facts not drawn from a captured record are marked [press-sourced].

Prepared for Keith Robertson.

HEADLINE FINDS

1. Honda Center secures a 2028 Olympics venue agreement

The Anaheim City Council approved a Games Agreement with the Los Angeles Organizing Committee for the Olympic and Paralympic Games 2028 (OCOG) to host indoor volleyball at Honda Center. Honda Center anchors the OCVibe district, so an Olympic booking locks in national attention, arena capital works, and hospitality demand across the surrounding parcels through 2028. It confirms the district is being positioned as a live-event destination, not only a real-estate program.

- Players: Los Angeles Organizing Committee for the Olympic and Paralympic Games 2028 dba OCOG; City of Anaheim.
- Date: 2025-10-27. Source type: Council Agenda (Anaheim, Granicus).
- Link: https://0/0anaheim.granicus.com/0AgendaViewer.php?0view_0id=02&0clip_0id=03511#item-17

2. Anaheim sends a Tourism Mobility Tax to the ballot

A City Council resolution ordered submission to the voters of a general tax measure, the Tourism Mobility Tax, establishing a 10% tax on rideshare trips. A dedicated mobility-funding stream reshapes how the Resort, OCVibe, and Platinum Triangle corridor pays for access and transit, which feeds directly into project economics and phasing for every developer in the district. The measure is worth tracking to its vote because the outcome changes the funding backdrop for the whole corridor.

- Players: City of Anaheim.
- Timing: the 2026-07-27 date is the upcoming Anaheim City Council meeting at which the measure is scheduled, so it is only days away as of this brief.
- Date: 2026-07-27. Source type: Council Agenda (Anaheim, Granicus).
- Link: https://0/0anaheim.granicus.com/0AgendaViewer.php?0view_0id=02&0event_0id=01858#item-16

3. OCVibe is actively performing, and its residential phase enters review

Two records read together. First, a Council determination on the OCVIBE Master Site Plan development agreement, the annual good-faith compliance review, naming the three project entities. Second, a CEQAnet filing, OCVIBE Residential Phase I, with the City of Anaheim as lead agency. The compliance review confirms the district is performing against its entitlement, while the Residential Phase I environmental filing is an early signal that the next build phase is moving.

- Players: Anaheim Real Estate Partners, LLC; TS Anaheim, LLC; FCD, LLC (the OCVibe ownership entities); City of Anaheim.
- Dates: development-agreement review 2026-07-13 (Council Agenda); CEQA filing 2026-02-06 (CEQAnet, document type environmental).
- Links: https://0/0anaheim.granicus.com/0AgendaViewer.php?0view_0id=02&0clip_0id=03646#item-9 and <https://0/0ceqanet.opr.ca.gov/0Project/02004121045>

4. Walt Disney Parks and Resorts easement and roadway reimbursement at CFTOD

Two consent items from the CFTOD Board of Supervisors packet of January 23, 2026. One approves a non-exclusive and permanent easement to Walt Disney Parks and Resorts U.S. Inc. for underground communication lines (packet page 146). The other approves the First Amendment to the Roadway Expansion

Land Dedication and Reimbursement Agreement (packet page 12). Together they expose the live district-to-Disney cost sharing and land mechanics behind current Walt Disney World infrastructure work, including who is executing it.

- Players: Walt Disney Parks and Resorts U.S. Inc. (applicant on the easement); presented by Katherine Luetzow (Director, Planning and Engineering) and Craig Sandt (Director of Construction Management).
- Contact in record: Katherine Luetzow, Director, Planning and Engineering Department, Public Works (presenter on the easement item); Craig Sandt, Director of Construction Management (presenter on the roadway item). No phone or email appears in the record.
- Date: 2026-01-23. Source type: Council Agenda (CFTOD special-district packet, page references retained).
- Links: <https://www.oversightdistrict.org/wp-content/uploads/2026/01/01-23-2026-BOS-Agenda-Packet-FINALcs.pdf#item-6.4-p146> and <https://www.oversightdistrict.org/wp-content/uploads/2026/01/01-23-2026-BOS-Agenda-Packet-FINALcs.pdf#item-6.2-p12>

5. Disney construction is legally staged at SFWMD

The South Florida Water Management District carries Environmental Resource Permits filed under Disney entities, including the Disney's Animal Kingdom Lodge West Service Road Extension (applicant Walt Disney World Hospitality and Recreation Corp) and the Disney I-4 Interchange and County Road 535 Connector. SFWMD permits are where central-Florida site work is legally staged, so watching the Disney applicant names here gives early sight of new Walt Disney World construction before it is announced. Note that the two records cited are permits of record with historical issue dates; their value is the confirmation that this channel is now monitored for new Walt Disney World filings.

- Players: Walt Disney World Hospitality and Recreation Corp; Florida Department of Transportation.
- Dates: Animal Kingdom Lodge service road 1998-12-03; I-4 interchange 1981-07-09. Source type: SFWMD Environmental Resource Permit (open ArcGIS layer).
- Link: <https://www.sfwmd.gov/dregpermitting>

6. The CFTOD 2045 Comprehensive Plan reserves the theme-park future

The district's adopted 2045 Comprehensive Plan sets the land-use framework for future Walt Disney World expansion, and its theme-park and entertainment provisions were read and captured at the page level (pages 16, 18, 21, 36, 38, 45, and 48). This is the forward map of what can be built and where through 2045, which makes it the single most useful planning document for anticipating Disney's central-Florida moves.

- Players: Central Florida Tourism Oversight District (Cities of Bay Lake and Lake Buena Vista).
- Date: 2026-01-01. Source type: Comprehensive Plan (special district).
- Link: <https://www.oversightdistrict.org/wp-content/uploads/2026/01/2045-CFTOD-Comprehensive-Plan.pdf#plan-p16>

7. Top Gun Las Vegas: we are positioned to see the first permit

The Paramount and Advent Allen "Top Gun" attraction relocated from The Strat to a parcel at 4815 South Las Vegas Boulevard at Russell Road, in unincorporated Clark County near Harry Reid International Airport and the Welcome sign. No entitlement filing exists yet in the system, which is correct: the land sale closed only recently and the project sits between filing stages. The parcel is in Clark County jurisdiction, which the system already monitors through the county Legistar lane, and the search terms (Advent Allen, 4815, Russell Road, Simtec) are armed, so the first development agreement, use permit, or FAA tower filing will surface the moment it is lodged.

- Players: Advent Allen Entertainment; Paramount; Simtec (ride systems).
- Status: under active watch; no database record yet (stated honestly).
- Facts not yet in a captured record: the 2.48-acre parcel sold for \$12.5M to Advent Allen [press-sourced]; a 2028 opening target [press-sourced].

8. PT Metro LLC resets the Platinum Triangle Expansion timeframe

An Anaheim Council item, Development Agreement No. 2005-00008 Addendum No. 4 to the Platinum Triangle Expansion Project, establishes new development timeframes and a performance schedule. Platinum Triangle is the OCVibe-adjacent growth zone, so a timeframe reset signals that PT Metro is re-phasing a major mixed-use entitlement, which is a natural opening for partner engagement and consulting.

- Players: PT Metro, LLC (and Joey Caucas).
- Contact in record: Joey Caucas, named with the applicant PT Metro, LLC (address of record 20 Enterprise, Suite #125, Aliso Viejo, CA 92656). No phone or email appears in the record.
- Date: 2026-01-26. Source type: Council Agenda (Anaheim, Granicus).
- Link: https://o/anaheim.granicus.com/AgendaViewer.php?view_Did=02&clip_Did=03560#item-19

9. Oakland Coliseum complex moves toward sale

An Oakland City Council item adopts an ordinance authorizing the City Administrator to amend the Purchase and Sale Agreement for the City's interest in the Coliseum complex, the Second Amendment to the Coliseum Complex Sale Agreement. The Coliseum, with its arena and stadium parcels, is a marquee sports and entertainment redevelopment site, and an amended sale advances it toward new ownership and reuse.

- Players: City of Oakland (Economic and Workforce Development Department and Finance Department).
- Date: 2026-07-20. Source type: Council Agenda (Oakland, Legistar).
- Facts not in the captured record: the arena and stadium parcels have been reported at roughly \$50M and \$60M respectively [press-sourced].
- Link: <https://o/oakland.legistar.com/gateway.aspx?M=01&ID=037487>

10. OTR converts Specific Plan No. 90-1 to mixed use in Anaheim

A Council item proposes a Specific Plan Amendment to amend Specific Plan No. 90-1 to allow mixed-use land uses, together with a General Plan Land Use Element amendment and final site plan approval. A conversion of an older specific plan to mixed use is a fresh entitlement of scale in the Anaheim market.

- Players: OTR, an Ohio Partnership.
- Date: 2026-01-12. Source type: Council Agenda (Anaheim, Granicus).
- Link: https://o/anaheim.granicus.com/AgendaViewer.php?view_Did=02&clip_Did=03552#item-20

11. Wyndham Hotel expansion in the Anaheim Resort district

Per the stored record, the application seeks to increase the Wyndham Hotel at 515 West Katella Avenue (about 260 feet east of Harbor Boulevard) from the previously approved 78 rooms to 107 rooms, with changes to accessory use areas. It requires a General Plan Amendment creating a new Medium Density (Modified B) category, Amendment No. 18 to the Anaheim Resort Specific Plan No. 92-2 and its zoning code, and an Administrative Adjustment for a 28% reduction in required parking. The Anaheim Resort specific plan governs the hotel and visitor core around the Disneyland Resort, so a room-count increase here is a direct hospitality-supply signal in the resort district.

- Players: owner representative Alice Hsu; applicant agent Kenneth Pang.
- Contact in record: Alice Hsu, owner representative, 515 W. Katella Avenue, Anaheim, CA 92802; Kenneth Pang, applicant agent, 150 El Camino Real, #112, Tustin, CA 92780. No phone or email appears in the record.
- Date: 2026-02-23. Source type: Council Agenda (Anaheim, Granicus).
- Link: https://o/anaheim.granicus.com/AgendaViewer.php?view_Did=02&clip_Did=03570#item-24

WATCH LIST

- **4815 South Las Vegas Boulevard at Russell Road (Top Gun parcel), unincorporated Clark County.** Watching the county Legistar lane for the first development agreement, use permit, or building record on the parcel, and the FAA obstruction-evaluation channel for any tower-ride filing. Search terms Advent Allen, 4815, Russell Road, Simtec are armed. Nothing filed yet.
 - **Anaheim Tourism Mobility Tax ballot measure (10% rideshare tax).** Watching to the vote and its effect on district and corridor funding. Captured as a Council record dated 2026-07-27.
 - **Clark County entitlements at the south end of the Strip (Russell Road and Las Vegas Boulevard corridor).** Active named-developer agreements are already appearing here, including Toll South LV LLC (2026-07-21) and Cimarron Spring Deux LLC (2026-07-07), and a Russell Road use permit filed by RDXNWP, LLC (2026-07-07). This is the corridor the Top Gun parcel sits in, so it is under continuous monitoring.
-

COVERAGE NOTE

This brief is generated from primary sources, not press. The system now reads individual records out of the platforms rather than bookmarking them: agenda items are split out of Anaheim (Granicus) and City of Las Vegas (PrimeGov) meeting agendas and out of Clark County and Oakland Legistar; CFTOD board packets and the 2045 Comprehensive Plan are read at the page level with page references retained; California environmental filings are pulled from CEQAnet; and Disney-entity water permits are pulled from the South Florida Water Management District open permit service. Each headline above cites the exact captured record, its date, and its source type, and every link was fetch-verified before this brief was issued. The small number of facts drawn from press rather than a captured record (the Top Gun sale price and opening target, and the Oakland parcel valuations) are marked [press-sourced] so the provenance is never ambiguous.
