Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to United States > Clark County. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] Dormant projects are excluded from this report. None in this geography is dormant.
- [ASSESSMENT] 35 projects this scope proposes are held out of this document because they have not been confirmed as part of Simtec Attractions' coverage. A scope is a proposal: it finds projects that look like a match, and each one is confirmed by hand on the register before it may be printed. Those projects are on the register, unconfirmed, and are not a statement that they do not belong here. Confirming them on the register and regenerating is what puts them in this document.
- [ASSESSMENT] This document describes the 15 most significant projects in scope. Every project in scope is described.
- [ASSESSMENT] 5 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 1 record counted on the cover is the same filing captured more than once - a bilingual minute, or a document captured page by page - and is shown once above.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
