

Market intelligence report

Prepared for Internal

GEOGRAPHY	all covered markets
PERIOD	July 2026
PIPELINE	hospitality
FILTERS	dormant excluded context records included
BASIS	221 projects, 182 records

Provenance legend. This report separates three kinds of statement so the reader can weigh each. [RECORD] marks facts drawn from the government filings we captured, each with the link to the filing itself. [PRESS] marks facts reported in the press or otherwise beyond our filing record. [ASSESSMENT] marks our own read, offered as judgment rather than as fact.

Scope of this report

What this document covers, and what it does not.

[ASSESSMENT] This report covers all covered markets for July 2026. It is drawn from 221 projects and 182 captured records. Of those projects, 30 are described in full, selected by significance; 39 further projects are counted but not described; 151 projects filed nothing in this period; and 1 carries no market or region we could resolve. A further 54 projects in this geography are excluded because our capture holds no published name for them; the coverage note says where. Anything outside that geography or period is not covered here.

What moved

Projects that advanced a stage in this period.

No project in this scope advanced a stage during July 2026. 1 project moved into or out of stalled or dormant, which is a verdict about how long a source has been quiet rather than something that happened.

Headline finds

The 15 most significant projects in this scope and period, with their most recent filing.

[PRESS]	Heart Hotel / Kulik River: Las Vegas Topic Kulik River Capital 2026-07-24 Clark County news3lv.com

Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to all covered markets. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] No capture run on record has kept a record for Downtown Brooklyn, Los Angeles and Missoula. Those markets appear here on what we held before we began recording per-market capture, so we cannot say when they were last read.
- [ASSESSMENT] Coverage of Anaheim does not reach the decision, its body and its date. This is a limit of what we read in Anaheim, not a finding that the record is silent on it.
- [ASSESSMENT] Coverage of Central Florida Tourism Oversight District does not reach the stated facts of the scheme and the decision, its body and its date. This is a limit of what we read in Central Florida Tourism Oversight District, not a finding that the record is silent on it.
- [ASSESSMENT] Coverage of Nashville does not reach the stated facts of the scheme and the decision, its body and its date. This is a limit of what we read in Nashville, not a finding that the record is silent on it.
- [ASSESSMENT] Coverage of Phoenix does not reach the stated facts of the scheme and the decision, its body and its date. This is a limit of what we read in Phoenix, not a finding that the record is silent on it.
- [ASSESSMENT] Conditions of approval are published per project in Clark County, and nowhere else this document covers: Anaheim, Central Florida Tourism Oversight District, Nashville, New York City and Phoenix do not publish them per project. Nothing here should be read as saying an approval in those markets carries no conditions. Where such requirements exist they are standing requirements of the jurisdiction rather than terms attached to this approval, and we do not reproduce them.
- [ASSESSMENT] 70 projects in this geography are dormant and excluded from this report: they have had no filing for long enough that we no longer treat them as live. They remain on the register.
- [ASSESSMENT] This document is not tied to a client, so no confirmation step applies to it: it covers what the scope resolves to. Nothing is held out awaiting confirmation.
- [ASSESSMENT] This document describes the 30 most significant projects in scope. 39 further projects in scope are counted but not described.
- [ASSESSMENT] 7 projects described above have a one-line description on our register that is not printed here. Those lines were written by a model reading the filings rather than quoted from one, so there is no document to cite for them and they are not offered as Philip's assessment either. The filings under each entry are unaffected.
- [ASSESSMENT] 54 projects in scope are not named in this document because our capture holds no published name for them - only the agenda line the matter was filed under, which is the instrument rather than the project. They are on the register and can be named by hand. By market: Nashville (17), Clark County (12), Broward County (8), no resolved market (4), Las Vegas (3), New York City (2), Oakland (2), Phoenix (2), Anaheim (1), North Carolina (1), Westchester County (1), Yonkers (1).
- [ASSESSMENT] One category is in scope with no project described, so it has no section above: Smart City/Urban (1). The count in brackets is how many projects in that category are in scope and below the detail cap.

- [ASSESSMENT] 151 further projects in scope had no filing captured during July 2026, so they are not described in any category section. They remain on the register.
- [ASSESSMENT] 11 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 27 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.
- [ASSESSMENT] 1 project in scope carries no market or region in our capture, most often a tender published against a country rather than a place. It is counted but not grouped under any market, because a project we cannot place must not be printed as though it were a market of its own.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
