Provenance legend. This report separates three kinds of statement so the reader can weigh each. [RECORD] marks facts drawn from the government filings we captured, each with the link to the filing itself. [PRESS] marks facts reported in the press or otherwise beyond our filing record. [ASSESSMENT] marks our own read, offered as judgment rather than as fact.

Coverage note

The limits of this document.

[ASSESSMENT] Coverage is limited to Clark County. Projects outside it exist in our register and are not reported here.

[ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.

[ASSESSMENT] Dormant projects are excluded from this report. None in this geography is dormant.

[ASSESSMENT] This document describes the 15 most significant projects in scope. Every project in scope is described.

[ASSESSMENT] 2 projects described above have a one-line description on our register that is not printed here. Those lines were written by a model reading the filings rather than quoted from one, so there is no document to cite for them and they are not offered as Philip's assessment either. The filings under each entry are unaffected.

[ASSESSMENT] 1 further project in scope had no filing captured during July 2026, so it is not described in any category section. It remains on the register.

[ASSESSMENT] 4 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.

[ASSESSMENT] 2 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.

[ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
