

Market intelligence report

Prepared for Internal

GEOGRAPHY	all covered markets
PERIOD	July 2026
PIPELINE	hospitality
FILTERS	dormant excluded context records included
BASIS	211 projects, 182 records

Provenance legend. This report separates three kinds of statement so the reader can weigh each. [RECORD] marks facts drawn from the government filings we captured, each with the link to the filing itself. [PRESS] marks facts reported in the press or otherwise beyond our filing record. [ASSESSMENT] marks our own read, offered as judgment rather than as fact.

Scope of this report

What this document covers, and what it does not.

[ASSESSMENT] This report covers all covered markets for July 2026. It is drawn from 211 projects and 182 captured records. Of those projects, 15 are described in full, selected by significance; 54 further projects are counted but not described; 141 projects filed nothing in this period; and 1 carries no market or region we could resolve. 76 projects whose every record has been dismissed are excluded entirely, because they have no filing to cite. A further 53 projects in this geography are excluded because our capture holds no published name for them; the coverage note says where. Anything outside that geography or period is not covered here.

What moved

Projects that advanced a stage in this period.

No project in this scope advanced a stage during July 2026. 1 project moved into or out of stalled or dormant, which is a verdict about how long a source has been quiet rather than something that happened.

Headline finds

The 15 most significant projects in this scope and period, with their most recent filing.

[PRESS]	Heart Hotel / Kulik River: Las Vegas Topic Kulik River Capital 2026-07-24 Clark County news3lv.com

OGVibe Cooperative Agreement No. 12-0876, in substantial form, with Caltrans for design (plans, specifications, and estimates) Records show 4 filings and 4 press reports between 2026-02-06 and 2026-07-13.

AS REPORTED IN THE PRESS
The project includes the Urban Park, the Katella Commons market hall, The Weave office building and the 5,000-seat concert hall. The project is located on a 100-acre site in the heart of Orange County, California, just north of the city of Anaheim. The project is a multi-phased development that will be completed in several stages. The first stage is the construction of the Urban Park, which will be completed in 2020. The second stage is the construction of the Katella Commons market hall, which will be completed in 2021. The third stage is the construction of The Weave office building, which will be completed in 2022. The fourth stage is the construction of the 5,000-seat concert hall, which will be completed in 2023. The project is a public-private partnership between the City of Anaheim and the private sector. The City of Anaheim is providing the land and the private sector is providing the funding and construction. The project is a major development for the City of Anaheim and the surrounding area. It will create jobs, increase tax revenue, and provide a new cultural and entertainment destination for the community. The project is also a testament to the City of Anaheim's commitment to public-private partnerships and to the development of the city's infrastructure. The project is a model for other cities in the region and the country. It shows that public-private partnerships can be successful in creating high-quality public infrastructure. The project is a source of pride for the City of Anaheim and the surrounding area. It is a testament to the city's leadership and vision. The project is a major achievement for the City of Anaheim and the private sector. It is a source of inspiration for other cities and communities. The project is a model for the future of public infrastructure development. It shows that public-private partnerships can be successful in creating high-quality public infrastructure. The project is a source of pride for the City of Anaheim and the surrounding area. It is a testament to the city's leadership and vision. The project is a major achievement for the City of Anaheim and the private sector. It is a source of inspiration for other cities and communities. The project is a model for the future of public infrastructure development.

"Located at the Aqueduct Race Track, RWNYC currently operates approximately 6,500 slot machines and has 400 rooms available via the attached Hyatt Regency JFK Airport."
- [PRESS] **seats: 7,000-seat**
"...City, announced a \$5 billion project that would add a 350,000-square-foot casino floor , 1,600 hotel rooms and a 7,000-seat entertainment venue to its space in Queens, New York."
- [PRESS] **floor area: 350,000 square feet**
"Dive Insight: If approved, RWNYC's redevelopment project would create one of the largest casino floors in the world at 350,000 square feet, according to a release from the company."
- [PRESS] **amount reported: \$5B**
"An article from Dive Brief Resorts World New York City launches bid for \$5B development The racetrack casino in Queens will create a full "Las Vegas-style" gaming complex — if the New York..."

Publications do not agree on rooms (2 figures). Each figure above is quoted from the article that printed it and carries its publisher, and we have no filing stating any of them - so this is a disagreement between sources rather than a correction of one by another, and which is current is not something our record can settle.

Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to all covered markets. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] 76 projects in this geography are dormant and excluded from this report: they have had no filing for long enough that we no longer treat them as live. They remain on the register.
- [ASSESSMENT] This document is not tied to a client, so no confirmation step applies to it: it covers what the scope resolves to. Nothing is held out awaiting confirmation.
- [ASSESSMENT] This document describes the 15 most significant projects in scope. 54 further projects in scope are counted but not described.
- [ASSESSMENT] 4 projects described above have a one-line description on our register that is not printed here. Those lines were written by a model reading the filings rather than quoted from one, so there is no document to cite for them and they are not offered as Philip's assessment either. The filings under each entry are unaffected.
- [ASSESSMENT] 53 projects in scope are not named in this document because our capture holds no published name for them - only the agenda line the matter was filed under, which is the instrument rather than the project. They are on the register and can be named by hand. By market: Nashville (15), Clark County (12), Broward County (7), no resolved market (4), Oakland (4), Las Vegas (3), New York City (2), Phoenix (2), Anaheim (1), North Carolina (1), Westchester County (1), Yonkers (1).
- [ASSESSMENT] 2 categories are in scope with no project described, so they have no section above: Infrastructure (5), Smart City/Urban (1). The count in brackets is how many projects in that category are in scope and below the detail cap.
- [ASSESSMENT] 141 further projects in scope had no filing captured during July 2026, so they are not described in any category section. They remain on the register.
- [ASSESSMENT] 11 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 16 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.

- [ASSESSMENT] 1 project in scope carries no market or region in our capture, most often a tender published against a country rather than a place. It is counted but not grouped under any market, because a project we cannot place must not be printed as though it were a market of its own.
- [ASSESSMENT] 76 projects in this geography hold no live record and are excluded: every record attached to them has been dismissed on review, so there is nothing to cite.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
