Provenance legend. This report separates three kinds of statement so the reader can weigh each. [RECORD] marks facts drawn from the government filings we captured, each with the link to the filing itself. [PRESS] marks facts reported in the press or otherwise beyond our filing record. [ASSESSMENT] marks our own read, offered as judgment rather than as fact.

Scope of this report

What this document covers, and what it does not.

[ASSESSMENT] This report covers United States > Altamonte Springs, Anaheim, Bonita Springs, Central Florida Tourism Oversight District, Clark County, Kissimmee, Lake Buena Vista, Las Vegas, Miami-Dade County, Nashville, Oakland, Phoenix, San Antonio, South Florida, Walt Disney World for July 2026. It is drawn from 5 projects and 54 captured records. Of those projects, 5 are described in full, selected by significance. 76 projects whose every record has been dismissed are excluded entirely, because they have no filing to cite. 66 projects this scope proposes are held out of this document because they have not been confirmed as part of Simtec Attractions' coverage. A scope is a proposal: it finds projects that look like a match, and each one is confirmed by hand on the register before it may be printed. Those projects are on the register, unconfirmed, and are not a statement that they do not belong here. Anything outside that geography or period is not covered here.

What moved

Projects that advanced a stage in this period.

No project in this scope advanced a stage during July 2026. 1 project moved into or out of stalled or dormant, which is a verdict about how long a source has been quiet rather than something that happened.

Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to United States > Altamonte Springs, Anaheim, Bonita Springs, Central Florida Tourism Oversight District, Clark County, Kissimmee, Lake Buena Vista, Las Vegas, Miami-Dade County, Nashville, Oakland, Phoenix, San Antonio, South Florida, Walt Disney World. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] Dormant projects are excluded from this report. None in this geography is dormant.
- [ASSESSMENT] 66 projects this scope proposes are held out of this document because they have not been confirmed as part of Simtec Attractions' coverage. A scope is a proposal: it finds projects that look like a match, and each one is confirmed by hand on the register before it may be printed. Those projects are on the register, unconfirmed, and are not a statement that they do not belong here. Confirming them on the register and regenerating is what puts them in this document.
- [ASSESSMENT] This document describes the 15 most significant projects in scope. Every project in scope is described.
- [ASSESSMENT] 1 project described above has a one-line description on our register that is not printed here. Those lines were written by a model reading the filings rather than quoted from one, so there is no document to cite for them and they are not offered as Philip's assessment either. The filings under each entry are unaffected.
- [ASSESSMENT] 11 further filings on the projects described are in scope but not printed, because each project shows its most recent filings only.
- [ASSESSMENT] 12 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.
- [ASSESSMENT] 76 projects in this geography hold no live record and are excluded: every record attached to them has been dismissed on review, so there is nothing to cite.
- [ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
