Decision dates ahead, from the captured records.

No record in this scope carries a future decision date. Hearing dates are not currently extracted from agenda records, so this reflects our capture rather than the absence of scheduled hearings.

Coverage note

The limits of this document.

- [ASSESSMENT] Coverage is limited to all covered markets. Projects outside it exist in our register and are not reported here.
- [ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.
- [ASSESSMENT] Dormant projects are excluded from this report.
- [ASSESSMENT] This document describes the 15 most significant projects in scope. 87 further projects in scope are counted but not described.
- [ASSESSMENT] 18 projects in scope carry no market or region in our capture, most often a tender published against a country rather than a place. They are counted but not grouped under any market, because a project we cannot place must not be printed as though it were a market of its own.

[ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
