15 of 198 projects in scope are described above, selected by significance. 31 further projects in Las Vegas are not detailed here. 19 further projects in Clark County are not detailed here. 9 further projects in Anaheim are not detailed here. 9 further projects in Nashville are not detailed here. 8 further projects in Phoenix are not detailed here. 5 further projects in Oakland are not detailed here. 1 further project in each of Abu Dhabi, Dubai, Jeddah, New York City, North Carolina, Queensland, San Antonio, Sharm El-Sheikh and Walt Disney World is not detailed here. Add the "Appendix: projects not detailed" section to name them. 63 further projects in scope had no filing captured during July 2026, so they are not described here. They remain on the register. 30 further projects in scope have no

market or region resolved and are therefore not grouped under any market above. 15 further filings on the projects above are in scope but not printed, because each project shows its most recent filings only. 16 records counted on the cover are the same filing captured more than once - a bilingual minute, or a document captured page by page - and are shown once above.

Upcoming hearings and deadlines

Decision dates ahead, from the captured records.

No record in this scope carries a future decision date. Hearing dates are not currently extracted from agenda records, so this reflects our capture rather than the absence of scheduled hearings.

Coverage note

The limits of this document.

[ASSESSMENT] Coverage is limited to all covered markets. Projects outside it exist in our register and are not reported here.

[ASSESSMENT] The period is July 2026. Activity outside it is not included even where it concerns the same project.

[ASSESSMENT] Dormant projects are excluded from this report.

[ASSESSMENT] This document describes the 15 most significant projects in scope. 90 further projects in scope are counted but not described.

[ASSESSMENT] 30 projects in scope carry no market or region in our capture, most often a tender published against a country rather than a place. They are counted but not grouped under any market, because a project we cannot place must not be printed as though it were a market of its own.

[ASSESSMENT] Records are captured from published sources. A matter that has not been published, or that is published somewhere we do not yet capture, will not appear.
